

SNOW AND ICE

When the snow is piling high or the roads and sidewalks are a sheet of ice there is a possibility that church services will be canceled. While the conditions need to be rather extreme for this to happen it has happened periodically. When conditions are questionable please check NBC 15, www.nbc15.com, or call the church office, and press 1, where the message on the phone will announce that services are canceled if that's the case. Our concern is always for your safety and the condition of our parking lot and sidewalks are also taken into account whenever a decision is made. We hope you understand.
